INSTRUCTIONS FOR HANGING THIBAUT WALLPAPER

1. PRIOR TO HANGING YOUR SCREENPRINTED WALLPAPER
   - Check to be sure that you have received the pattern and color ordered and that all rolls are from the same run number.
   - All coordinating or companion decorative products should be in your possession before any work is started. Check colors of each companion item to be certain they are consistent.

2. WALL PREPARATION
   - Walls should be smooth, dry, sound and clean, free of loose paint, grease, old wallpaper adhesive, mold or mildew.
   - Apply a quality interior caulk around windows, doors, ceiling and floor molding (optional).
   - All walls must be sealed, and we recommend SHIELDZ Universal Pre-Wallcovering Primer on all surfaces prior to the installation of this wallpaper to increase adhesion to the wall and to make hanging easier. SHIELDZ is manufactured by William Zinsser & Co. Inc., Somerset, New Jersey.

3. GETTING STARTED
   - Draw a vertical line from ceiling to floor by using a plumb line or a straight edge with level. This will be your guide for positioning one edge of the first strip. (Begin hanging in the corner behind the entry door, or the least conspicuous corner in the room. Plan your first strip to be one third of its width on one side of the corner and two thirds on the other.)
   - Cut the strip to the height of the wall; allow an extra two inches on each end for trimming. (You may want to decide how you want your pattern centered on the wall prior to cutting.)

4. FOR PRE-PASTED WALLPAPER
   - There is no need to paste this product, since it contains paste on the back.
   - Roll the strip, pasted side out, and immerse in a trough of warm water for 30 seconds.
   - Slowly remove from the water, allowing the strip to unroll. Fold each end of the strip toward the middle, pasted sides together, aligning edges carefully so they do not dry out. (This is called booking.)
   - Roll the pasted strip and place in a plastic garbage bag to prevent the sheet from drying. Allow strip to relax in bag for 8 minutes. (You may want to paste a few strips ahead to speed up hanging time and to encourage yourself to wait for at least 5 minutes for paper relaxation.)

5. HANGING YOUR NEW THIBAUT WALLPAPER
   - Bring strip of wallpaper to the wall and hang. Carefully smooth air pockets, wrinkles or excess paste from the center of the strip to the edges. For smoothing, we recommend the use of a brush or a plastic wallpaper smoother. IT IS IMPORTANT NOT TO USE EXCESSIVE PRESSURE WHEN SMOOTHING OUT YOUR WALLPAPER. THIS CAUSES PASTE TO BE SQUEEZED OUT LEAVING INADEQUATE ADHESIVE TO DO THE JOB.
   - Trim excess paper at floor and ceiling with a razor knife; use a new blade for each cut.
   - BE SURE TO WIPE OFF EXCESS PASTE FROM THE SURFACE OF THE STRIP WITH A DAMP SPONGE OR CLOTH. PASTE RESIDUE MAY CAUSE DAMAGE TO THE PRINT SURFACE.
   - Repeat this procedure with the next strip. Be sure to match the design. Do not overlap the seams.
   - After you have hung a few strips, go back and wash with a clean, damp sponge or cloth to remove any other excess paste.

6. ENJOY YOUR BEAUTIFUL THIBAUT WALLPAPER.

IMPORTANT: Your wallpaper was thoroughly inspected, but please examine it closely yourself before hanging to be sure you will be satisfied. Thibaut will not be responsible for labor costs associated with the installation of incorrect or imperfect wallpaper.

We recommend that a quality paper liner be used under our wallcoverings. Please consult with your paper hanger prior to installation.

CAUTION

We recommend that a quality paper liner be used under our wallcoverings. Please consult with your paper hanger prior to installation.

ARE YOU CERTAIN THIS IS THE CORRECT PRODUCT AND COLOR?

IMMEDIATELY UPON RECEIPT PLEASE OPEN SHIPMENT AND CHECK IF NUMBER, COLOR, FACE AND DESCRIPTION CORRESPOND WITH DECORATOR’S ORDER.

ALL RETURNS MUST BE AUTHORIZED BY US IN WRITING.

After receipt of shipping label from our Customer Service Department, returns must be sent to: Stark Wallcovering Warehouse, 100-02 Rockaway Boulevard, Ozone Park, New York 11417-2227, Attn: Peter Lefkowitz.

No returns or credits allowed after product has been cut or treated.

Due to the irregular nature of natural products, variations in color and texture may occur within one roll or from run to run. This is an inherent characteristic. Color and pattern variations are desirable and normal elements. There may be variations in dye lot. Actual color is not guaranteed and there is no guarantee against fading. Unless a wallcovering is specifically sold as washable, neither paste nor water should be allowed to contact the decorative (front) surface. Use only a paper hanger experienced in the installation of fine quality wallcoverings.

NO RETURNS:
- Beyond 30 Days From Invoice Date
- On less than 10 rolls
- On Non Inventory Items
- On Plain Ground Stock
- On Custom Orders
- On Exported or Special Orders
- On Treated Wallcovering
- On Cut Yardage
- On Opened Rolls
- On Discontinued Items
- On Limited Stock Items

We Will Not Accept Any Claims for Labor Costs.

AUTHORIZED RETURNS ARE SUBJECT TO A 25% to 50% RESTOCKING CHARGE.

Contact Customer Service Department.

We recommend the use of paper hangers who are members of The National Guild of Professional Paper hangers.

NOTE: The highest quality of workmanship is employed in the production of this wallcovering. Careful inspection is made before shipment, however final inspection and approval are the ultimate responsibilities of the customer. Correct design and color should be checked before the wallcovering is cut or hung.

CAUTION

Due to the possibility of differences in dye lots, we recommend that all fabrics and wallpapers be in your possession before any work is started. Paints and special dye jobs should be made to match actual fabrics and wallpapers, not sample materials. No claims will be recognized on fabrics or wallcoverings after it has been processed by the purchaser in any way.

FOLLOW MANUFACTURER’S INSTRUCTIONS:

There are many types of wallcovering as well as adhesives on the market. It is important to follow the recommendations made by the manufacturer. You should use the proper adhesive to achieve the best results and fulfill requirements for manufacturer’s warranty.
